

Your Customers Want Brick Finishes

Now You Can Give Them
What They Want

With two thin brick product lines available to you
from **Metropolitan Ceramics**

ROYAL THIN=BRICK®

Ironrock Since 1866

Queen size thin brick - tumbled for a worn and weathered appearance.

Install Royal Thin Brick on any structurally sound interior or exterior surface. Use Royal for new construction or your next renovation project. Use Royal on exterior walls, backsplashes, floors, fireplaces, feature walls, walkways or anywhere you want the look of full brick without the added cost and effort.

Royal Thin Brick is tumbled after firing to capture the essence of worn reclaimed brick. During the tumbling process, crisp edges are worn down, and sharp corners are rounded or knocked off. The appearance is made complete with a traditional wire cut face that adds texture and variation.

METROBRICK® FAST SHIP PROGRAM

Thin Brick Fast

Modular thin brick - precise edges for a clean traditional look.

METROBRICK® Architectural Thin Brick is a true kiln fired thin brick made to stringent guidelines for use in all types of brick veneer applications and construction types. The Fast Ship Program includes a variety of stock colors and blends.

METROBRICK has been installed throughout the United States in residential applications, schools, hospitals, hotels, retail, restaurants, breweries and much more. Each installation has unique requirements that METROBRICK® thin brick can meet.
